Inclement Weather Process & Procedures

In the case of the following situations:

- Rain with medium to heavy downpours;
- Lightening & Thunderstorm;
- Poor course conditions or closure due to rain; and
- Heat Index greater than 100 degrees.

First Tee -Tennessee in Memphis will most likely cancel programs at select facilities. In the case programs are canceled, a First Tee - Tennessee representative will contact families and/or program contacts no later than 45 minutes before the scheduled meeting time. If weather unexpectedly declines during an active program/lesson/group with more than 50% of the scheduled time for that lesson remaining, your First Tee coach will announce if the scheduled make-up lesson will take place.

We kindly ask that our First Tee friends & families:

- Do not call golf courses pertaining to their lesson update due to inclement weather;
- Allow First Tee - Tennessee in Memphis time to email and text (Remind) before reaching out to First Tee - Tennessee in Memphis. If you do not hear from us then programs will still be taking place as scheduled; and
- Always dress for the weather and bring water.

Thank you for your understanding. If you have not already, please join our Remind groups for immediate program updates.

First Tee - Tennessee in Memphis Staff

"With me being a pro golfer, it's allowed me to connect with great mentors along the way while also bridging them to First Tee in Memphis. So it's more golf, more golfing experiences, and amazing non-golf opportunities for Memphis' youth."

- Loren Roberts, Advisory Board Member
